

7/11/2012

Dr Diaco,

I never took the time to tell you how unbelievable you & your staff were when I had my surgery over 10 years ago. It was your impeccable reputation that brought me to your office which was over an hour from my home at the time.

I am now living in South Florida and recently had 3 consults for re-augmentation. It was during these consults that I was informed by 3 highly recommended Surgeons, of just how awesome your work was, 10 years later!!! In addition to a childbirth later!

I regret that I am unable to return to Tampa for my new surgery.

Your experience and love of your profession, clearly shows in the amazing work that you do.

Sincerely,

A handwritten signature in cursive script that reads "Alice".
