

I actually asked Dr. Diaco's staff how I could go about doing a testimonial on my terrific experience with Dr. Diaco, his work and his staff.

I was obese for a good portion of my life and now I live in the gym. I had loose skin everywhere from my extreme weight loss.

During my first consultation Dr. Diaco assured me he could fix all my issues which included gynecomastia, full tummy tuck, and extreme lipo. He also assured me the price given was the price and he would possibly error on the side of caution with the procedure. But when we were done it would be what I wanted. Fortunately this did not happen as Dr. Diaco got me to a point that I never dreamed possible. He so far surpassed anything that I even expected. Dr. Diaco had to take me back in surgery 6 months later for some revisions at no charge for him. Instead of him just passifying me to fix the issues at hand he blocked out even more time and went over and above what I could ever believe possible.

He is an awesome professional surgeon. His staff is the greatest - feel like we are family. Look at my pictures they tell the story.

Eric
