

January 28, 2016

Review of Dr. Daniel Diaco on my recent Blepharoplasty procedure:

The date of the procedure was January 12, 2016

Yes, most certainly, it was worth it and the \$4400 cost. I am only sorry I did not do this much sooner.

At age 70, my motivation was to have better vision by removing the droopy eyelids and the tired look I always had with the black bags under my eyes.

Dr. Diaco was extremely informative prior to the procedure and explained the entire process in depth and precisely what I could expect post-surgery.

I was very impressed that Dr. Diaco called my home the evening after the procedure, just to check on my well-being. Really great!!!!

I find him most gentle and caring.

On the following issues, I would rate them (5) stars:

- Overall rating
- Bedside manner
- Answered my questions (and then some)
- Time spent with me
- Phone and email responsiveness
- The staff was very professional and helpful both pre and post surgery
- Payment process was not complicated
- Wait times were minimal

I certify this review is my experience. I have no personal or business relationship with Dr. Diaco or his practice. I have received no incentive from Dr, Diaco or his staff to write this review.
