

January 28, 2011

When I was asked by Dr. Diaco's staff to tell my story of my surgery, I did not hesitate. I have told so many family members, friends, and friends of friends. From the first time I entered Dr. Diaco's office, I was met with smiles and respect. I was excited and nervous because I had waited 17 years to have this surgery. When Dr. Diaco entered the examination room, I was greeted with a smile and a hard handshake. I told him what I wanted and he told me he could do it. I wanted my stomach repaired from an emergency c-section scar, and lypo. The day finally arrived for me to get my surgery. I was so excited! Dr. Diaco came in and marked the areas for the procedure, and away I went, to the operating room. I don't remember much after surgery, except that once I got home, I asked my husband about the surgery. He told me that Dr. Diaco came out and told him that everything went well and my husband told me how nice he was. The next day I went into Dr. Diaco's office for the follow up. His staff was so wonderful, as was his assistant. There was no question I asked that was silly or crazy. They answered every one that I had.

The results have been amazing. Dr. Diaco is the best. Not only is he a fantastic doctor, but he is so sweet and makes you feel at ease. The trust I put in Dr. Diaco was not taken for granted. He is the best doctor, and person, I've ever met!
